EDUCATION

EDUCATION

Aurora's Degree and PG College, Hyderabad, IN
2020-2023 | B.Sc in Data Science

COMMUNITY AND VOLUNTEERING

- Moderator | EddieHub Community
- Mentor | MLH
- Hack Ambassador & Moderator | Hack The Mountains
- Mentor | RU Hacks
- HackOn Volunteer | HackON Foundation

PROJECTS

- Sense Hacker - A quiz game that tests your cybersecurity knowledge and aware you of potential risks.
- Spell-Bind - A storytelling game for magic lovers but the wizard got no magic. *I developed a mini-game and helped in the idealization of the project*
- Cyberon - A discord Bot made using discord.py which helps users or beginners in hackathons get the ongoing hackathon information right in their server.
- Alry Pages - An interactive game made for autistic children and parents which focuses on helping parents know more about their autistic children and teaching autistic children to detect emotions via the game. *I implemented Google Actions interactive canvas in the game.*
